

*Write the Vision,  
and make it  
plain*

*Have you written your vision? If so, that's amazing! If not, no problem! Write down, IN GREAT DETAIL, what you want for your life and your business. GIVE YOURSELF PERMISSION to take off all of the conditions and restrictions (ex. not having enough money, time, not knowing what resources are needed) and put them to the side during this exercise.*

*Write your vision for your life and business in the present tense. For example, if you write 'I want to make 5 figures in my business,' cross out ~~I want~~ and write 'I am.' It may feel uncomfortable at first (or it may not), but the more you get accustomed to speaking about your business in the present tense, the more you can walk in it. Let's get there in our mindset, even though you may not yet see it in the natural!*

*From Proverbs 23:7 "For as he thinketh in his heart, so is he..."*
